## Glossary

[View Full Glossary](#)

### Accident / Damage Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada. Different information in a vehicle's history can indicate an accident or damage, such as: salvage auction, fire damage, police-reported accident, crash test vehicle, damage disclosure, collision repair facility and automotive recycler records. Not every accident or damage event is reported and not all reported are provided to CARFAX. Details about the accident or damage event when reported to CARFAX (e.g. severity, impact location, airbag deployment) are included on the Vehicle History Report. CARFAX recommends you obtain a vehicle inspection from your dealer or an independent mechanic.

- According to the National Safety Council, Injury Facts, 2007 edition, 7% of the 245 million registered vehicles in the U.S. were involved in an accident in 2005. Over 75% of these were considered minor or moderate.
- CARFAX depends on many sources for its accident / damage data. CARFAX can only report what is in our database on 10/5/10 at 3:39:21 PM (EDT). New data will result in a change to this report.

### Georgia Police Reports:

- Provide an estimate of the extent of damage in its accident reports for the following:
  - EXTENSIVE: The accident damage was major and may affect the operation of the vehicle. This level of damage often results in a Salvage or Junk title.
  - FIRE: The accident damage to the vehicle resulted in a fire.
  - MODERATE: The accident damage is moderate and may affect the operation of the vehicle and/or its parts. Examples include broken windows, trunk lids, doors, bumpers and tires.
  - SLIGHT: The accident damage does not affect the operation of the vehicle. Examples include dented bumpers, fenders, grills and body panels. This level of accident should not compromise vehicle safety.
  - NO DAMAGE: The vehicle was not damaged.
- Are required if the estimated damage exceeds \$500
- Are released to CARFAX approximately 3 months after the accident date

### CARFAX History Impact™

Accidents, service records, number of owners and many other history factors can impact a vehicle's value. The CARFAX History Impact is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX impacts the value of a particular vehicle. The vehicle's retail book value plus the CARFAX History Impact will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### Failed Emissions Inspection

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

**Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

CARFAX DEPENDS ON ITS SOURCES FOR THE ACCURACY AND RELIABILITY OF ITS INFORMATION. THEREFORE, NO RESPONSIBILITY IS ASSUMED BY CARFAX OR ITS AGENTS FOR ERRORS OR OMISSIONS IN THIS REPORT. **Safety Recalls**

**NHTSA Safety Recalls:**

**Important:** The following recalls were issued for the 1998 SUBARU LEGACY OUTBK/LMT/30TH by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 1998 SUBARU LEGACY OUTBK/LMT/30TH still has open recalls that require repair, CARFAX recommends contacting an authorized dealership

Recall date:	Not reported
Units potentially affected:	223,520
NHTSA campaign number:	00I002000
Defective part or component:	ELECTRICAL SYSTEM: ALTERNATOR: REGULATOR: STARTER: OTHER PART
Description:	This is not a safety recall in accordance with the Safety Act. However, it is deemed a safety improvement campaign by the agency. Vehicle Description: Passenger vehicles. Some of these vehicles have an alternator problem that can result in a loss of charging capability. If the alternator fails, the alternator warning telltale will alert the driver to the problem, giving ample opportunity to seek repair before a loss of battery power, which, if the warning were ignored, could ultimately result in a loss of vehicle power (engine stall). Dealers will replace the alternator with a modified alternator. Owners will also be cautioned that, should the alternator telltale warning lamp illuminate, they must seek immediate repair to avoid the eventual loss of electrical power, which could result in an engine stall.
Recall date:	Not reported

Due to poor welds, ignition keys can stick, shift levers/linkages can break and shift levers can move. This condition can cause unexpected movement of the vehicle increasing the risk of a crash or property damage. The Purolator oil filter cans used on these vehicles can fracture causing a vaporized oil spray and subsequent oil leak. This vaporized oil spray can result in oil vapor ignition by the hot exhaust system resulting in a possible underhood fire. Dealers will inspect and replace these engine oil filters.</p>
