Compatibility Information:
Audi Phone Preparation with Bluetooth® and Apple iPhone®

Apple iPhone®
Version: 1.0.1 (1C25)*
Carrier: AT&T

Audi Phone Preparation with Bluetooth®
From MY 2006: Audi A3, A4/S4/Cabriolet, A6 and A8
From MY 2007: Audi Q7, S6, S8, RS4
From MY 2008: Audi TT, RS4 Cabriolet, R8 and A5/S5

* Please update your iPhone® using iTunes® if you have an older Firmware version.
To find the software version on your iPhone® go to **Settings ⇒ General ⇒ About**

Pairing instructions:

In your Audi:
- Turn ignition on. The initial bonding between iPhone® and Audi Phone Preparation has to be established in a stationary vehicle within 5 minutes after ignition on.

On the Apple iPhone®:
- Go to the Bluetooth menu
    Settings ⇒ General ⇒ Bluetooth
- The iPhone® will display a list of available Bluetooth-device(s)
- Select "Audi UHV xxxx" (xxxx = 4-digit number)
- Enter the 4-digit Bluetooth-PIN-code on your iPhone® within 30 seconds
   (default is **1234** if not changed in the MMI setup menu)
- Select "Connect" to establish the hands-free connection between the iPhone® and the car.

Delete Pairing:

In your Audi with Phone Preparation with Bluetooth®:
- Remove Bluetooth® devices
- **"SETUP" ⇒ Telephone settings ⇒ Bluetooth settings ⇒ Remove Bluetooth devices ⇒** select **Yes**

On the Apple iPhone®:
- Select "Audi UHV xxxx" from the list and select "Unpair"

Phonebook and call lists:

After the hands-free connection is established, the Audi Phone Preparation will import the phonebook and the call lists stored on the iPhone®.*

* A maximum of 1000 numbers can be shown on the Audi MMI Telephone menu.
  A maximum of 500 numbers can be shown on the Audi Navigation plus (RNS-E)
  Transfer can last up to 5 minutes depending on the number of phonebook entries.

Known limitations:

#1: After initiating and ending a call, a sporadic buzz noise may occur.

#2: With Wi-Fi turned "on" the iPhone® hands-free audio may sound distorted.

> **Solution:** Turn Wi-Fi off
> Go to **Settings** ⇒ **Wi-Fi** and select Wi-Fi **OFF**

#3: If the phone ringer is set to silent there may also no ring tone audible in the car for incoming calls (only applicable in MY2006 vehicles).

#4: International phone numbers starting with a + (e.g. +49… for Germany) are not imported accordingly from the iPhone® into the Audi Phone preparation.

> Therefore international phone numbers must be stored or edited respectively with a leading 011 instead (e.g. 01149…) in the iPhone®.
> However international phone numbers that are stored in the directory of the Audi Phone preparation can be lead by an +.. or 011..

Audi music interface

The Audi music interface offers a market-leading, unique and intelligent integration with the iPhone®. The main iPhone-iPod® menu structure will be displayed on the MMI screen. The central control knob on the MMI panel, or the multifunction steering wheel controls, may be used to easily navigate through playlists, albums, artists, etc. The Audi music interface also charges the iPhone® battery while it is connected.

Accessory message pop-up

After you connect your iPhone® via the supplied iPod® adapter cable, a message pop-up will be shown on the iPhone® display.

> After approx. 15 seconds the pop-up will disappear automatically or choose **No.**
>
> This message has no effect on functionality.
